## Bariatric Surgery at Mid Ohio Surgical Associates

The Bariatric Team at Mid Ohio Surgical Associates knows that no commitment is an easy one — especially when it comes to weight loss. That's why we have assembled a group of the finest surgeons, physicians and counselors to help make your bariatric treatment a long-term success.

### Where do I start?

The bariatric program is divided into manageable steps to help you complete the process.

You'll start with an educational forum. Learn more about the procedures and hear from physicians who have completed thousands of life-changing treatments.

Should you decide you'd like to pursue bariatric treatment further, you can pick up an information packet following the first educational forum. This will include forms and questionnaires that will help us determine whether bariatric treatment is right for you.

After you have decided this is the program for you, we will work hand-in-hand with you and your primary care physician to complete required medical examinations and assessments before your treatment.

When it comes time for your procedure, rest assured you are in the care of some of the best hands in the field. Our team of bariatric surgeons has collectively performed thousands of procedures. They have the expertise to know what will work best for you — putting you on the path to success.

### Why go it alone?

Having your bariatric treatment performed at Mid Ohio Surgical Associates means you'll never have to go it alone. In addition to our team of registered dietitians, program coordinators and counselors, patients can take part in an active support group — from before surgery to years ahead. You'll build a network of friends and confidants to encourage you — mind, body and soul.

Find comfort in our team of experienced professionals.

At Mid Ohio Surgical Associates, our team of respected, board-certified bariatric surgeons and talented support staff will guide and encourage you every step of the way.

## Our Bariatric Surgeons

### **Phillip Price, M.D., FACS,**

**ASBS** is a board certified surgeon with Mid Ohio Surgical. He is one of the most experienced advanced laparoscopic surgeons in the state

of Ohio. Dr. Price is a Fellow with the American College of Surgeons and a member of the American Society for Bariatric Surgery, International Federation for the Surgery of Obesity, Society of Laparoendoscopic Surgeons, the Ohio State Medical Association and Columbus Medical Association.

### **Patricia Choban, M.D.,**

**FACS** is a nationally renowned, board certified surgeon and the program director for bariatric surgery for the Mount Carmel Health System. She

serves as adjunct professor of human nutrition at The Ohio State University. She was appointed to the National Faculty for Bariatric Surgery by the American College of Surgeons in 2003 and was appointed to the Federal Food and Drug Administration (FDA) panel reviewing the "LAPBAND" device.

### **Marcus Miller, M.D.,**

**FACS** is a board certified surgeon and director of the laparoscopic skills lab for the Mount Carmel General Surgery residency training program, training

the next generation of surgeons. In addition, he serves as clinical assistant professor of surgery at The Ohio State University Hospital. Dr. Miller is a Fellow with the American College of Surgeons and a member of the American Society for Bariatric Surgery, Society of Laparoendoscopic Surgeons, Ohio State Medical Association and the Columbus Medical Association.
